QUALITY. COURTESY. SERVICE. The Spirit of Friendship.

This store looks upon its patrons not merely as customers but as friends. People purchase here because they have friendly feeling for this store.

The cause which develops this friendly feeling, may differ, in fact, they are sure to differ. One's friendship for the store is the result of finding good values; another's is the result of efficient service and courteous treatment, and so on.

Naturally this friendly feeling on the part of our patrons is reciprocated on our part. And the spirit of mutual friendship is an impetus for greater service and an incentive to ever-increasing endeavor to make this store a place where every visitor will feel perfectly at home.

A PERTINENT INQUIRY.

Taft Still for the League of Nations Without Reservations.

It is pertinent to inquire of Senator Harding which element of his party he would train with in the event of his election to the presidency. He failed to make his position clear in his speech of acceptance, and the public is still waiting to hear from him whether he would align himself with the irreconcilable enemies of the treaty and the league of nations, such as Senators Borah and Johnson, or such pro league republicans as former President Taft, who, writing in the Philadelphia Ledger about the time of the President's return from Versailles with the treaty, said: "Now that President Wilson brings back to us a real league and has fully made good his announced purpose, it would greatly release this country if the senators could give him unanimous support," and expressed the hope "that a forward looking senate will not seek to defeat this grand advance of mankind toward a just and lasting peace."

Aug. 1, Taft said: "When Mr. Wilson brought to this country the league covenant as reported to the Paris conference, I urged, on the same platform with him, that we join the league. I there after recommended amendments, some of which were adopted into its final form.

"Had I been in the Senate I would have voted for the league and treaty as submitted; and I advocated its ratification accordingly. I did not think and do not now think that anything in the league covenant as sent to the Senate would violate the Constitution of the United States or would involve us in wars which it would not be to the highest interest of the world and this country to suppress by universal boycott and, if need be, by military force.

"I consider that the moral effect of Article X on predatory nations would restrain them from war as the declaration of the Monroe Doctrine has done, and that the requirement of the unanimous consent by the representatives of the great powers in council before league action would safeguard the United States from any perversion of the high purpose of the league. Moreover, I believe that the issue of the league transcends in its importance any domestic issues and would justify and require one who believes so to ignore party ties and secure this great boon for the world and this country."—Philadelphia Ledger.

ARIZONA WEEKLY INDUSTRIAL REVIEW.

Aug. 23—Glendale district cotton crop for season estimated at 10,000 bales, doubling output of last season.

Tucson—Contract for seven miles of road on Benson-Vail highway let.

Phoenix—To launch huge power project for irrigation of entire state by construction of two power plants in Grand Canyon.

Willcox—Central Copper company to increase force to 100 to push development work.

Phoenix cotton crop now estimated 85 per cent of normal.

Yuma—Government approves 2nd unit of Yuma Mesa auxiliary project, estimated cost \$600,000 and comprising 5000 acres.

Tombstone—Solstice Mining and Milling company to erect 50 ton mill.

Douglas—218 cars of ore pass through local port in July, against 195 cars for June.

Douglas to get largest race track in west, including modern aero landing station.

Tucson—University lets contract for boys new dormitory to house 100 students.

Tucson—The Phelps Dodge & Calumet & Arizona mining companies are making special inducements to employes for home building. Money for homes is loaned for gradual repayment within 100 months, at 6 per cent.

With fairer rates railroads are beginning to earn revenues and prosperous conditions will follow, new lines will be built and replacements and betterments will make a market for wood, cement and metal products.

Cotton crops are in very good condition. Dry farm crops and ranges improved considerably by much rainfall in the eastern parts of state.

Douglas—Production of Calumet & Arizona Mining company for month of June was 3,812,000 pounds of fine copper, compared to 4,142,000 lbs. in June 1919.

Inspiration Copper company, produced 6,500,000 lbs. copper in July against 7,300,000 lbs. in June.

Glendale gets third bank capitalized at \$25,000.

Safford to get larger postoffice building.

Silver City—Shippers of manganese ores compelled to delay shipment account car shortage.

The farms and factories are the heart of the nation but without vessels to carry the life-giving tide parts of the country will be cold and lifeless. Help the railroads get more cars.

Globe—The cattle producers throughout county assert industry growing.

Jerome—United Verde Extension mine producing about 3,000,000 lbs. copper ore monthly.

Tombstone—New owners of Solstice mine to install 50 ton mill and other machinery.

Yuma—Construction of Yuma-Mesa highway progressing rapidly.

Miami—Gilson Consolidated, pushing development with eight men.

Chandler—Chandler Improvement company averages \$60 an acre for first alfalfa cut.

Tombstone—Grape growing in county demonstrated a commercial success.

Miami—Cowboy mine in Dripping Springs district being reopened.

Chandler—Survey work started for 40,000 sewer system.

Toltec—Local man planting 200 acres to lettuce.

Florence to build modern fire house.

Phoenix—Arizona-American-Egyptian Cotton Growers Association, estimate 1920 crop at \$36,000,000.

Yuma—5000 acres leased for Yuma Valley oil project.

Phoenix—Broom corn production throughout valley expected to become important industry.

Glendale highway to be paved to Phoenix.

Phoenix—20 carloads dairy cattle arrive in valley.

Chandler—2820 acres desert land to be developed by well sinking.

And the very I. W. W.s who scoff at law and order and want to supplant this government with a soviet reign of terror are the first to yip and yap about the law not affording them more protection so that they can do as they please in causing disruption.

Phoenix issues building permits totaling \$230,000 for month of July.

Phoenix—The general improvement in range conditions throughout state reported.

Chandler—Bank of Chandler being remodeled at cost of \$20,000.

Ajo—Martinez mine showing rich silver copper gold ore.

Holbrook—Philadelphia engineering firm surveying route for pipe line from San Juan oil field to local field. The oil activities throughout district booming.

Fairbank—The construction of giant powder factory becoming assured.

Miami received two carloads cement for paving.

Chloride—Hidden Treasure mine uncovers 6 ft. ore vein.

Swisshelm—Important silver strike reported in Great American mine.

Miami—Van Dyke Copper Co. preparing for lateral exploration.

The public school of Patagonia will open on the first Monday in September with a full corps of first class teachers. Mrs. Wiseman of Nogales will be the superintendent. She is a sister of Judge O'Connor.

PATAGONIA.

Interesting News Items Clipped From the Patagonian.

As soon as the road from Patagonia to Mansfield is open for heavy hauling, work will begin upon unwatering the old Sweet shaft. The shaft house and equipment is ready for the efficient operation of this shaft.

Mr. Mayton B. Hoffenyan arrived from Duluth, Minn., Wednesday evening. Mr. Hoffenyan is interested in the McDonald Mining Co., operating the Hosey mine, and is here because he enjoys our climate, and to take a look at the latest development upon their property.

The Morning Glory mine has recently cut a vein of iron sulphide, containing good copper and silver values. The company is figuring on putting in a concentrating plant but will further develop the ore bodies before doing this. The prospects at the Morning Glory are looking quite encouraging just at the present time.

H. J. Chenette, the enterprising druggist, has recently put in more new show cases and shelves and this up to date drug store is now just about as full as it can well be. Mr. Chenette has also improved conditions in front of the store by filling up all chug holes with sand and gravel. It is a dull day when he is not planning new enterprises.

L. E. Miller, pumper at the Flux mines, was in town Tuesday and stated that the new mill which has just been installed was fired up last Sunday and is running under full headway. There is plenty of water now at the Flux pumping station and quite a good many men are at work in the mines. He stated that the outlook at present is quite encouraging.

J. A. Glidewell is preparing to plant cane in between the rows of corn on his place in the east of town. He figures that even if the cane fails to mature fully it will make a lot of good hay which will come in quite handy this winter. In this Mr. Glidewell is correct, and other farmers having a few acres of ground not yet utilized will do well to plant it to cane.

V. P. Richards who has for the past two months held the position of bookkeeper in the First State Bank of Patagonia, has been tendered a position in The First National Bank of Nogales and will leave for the border city today to report ready for duty. Mr. Richards is a most estimable young man and has made a great many warm friends during his short stay in Patagonia.

FOR JUDGE PATTEE

Tucson.—A testimonial testifying to the fitness of Judge Samuel L. Pattee for the position of Judge of the supreme court of Arizona, for which office he is a candidate on the Democratic ticket, has been signed by every active lawyer in Pima county except one. In signing the testimonial, the lawyers declare they are putting aside "our political affiliations" and they commend him to the people of the state "because we know him to be truly a judge according to the highest and best standard and a man of probity and uprightness."

The testimonial is one of the most unusual endorsements ever received by a candidate for office in Arizona and is signed by Republicans, Democrats and at least one Socialist.

Judge Samuel L. Pattee was nominated for the Pima county superior court judgeship on both the Democratic and Republican tickets.

The testimonial follows: "We, the undersigned, active lawyers of Pima county, Arizona, believe that we are best qualified to pass upon the merits of Judge Samuel L. Pattee of the county, now a candidate for the supreme court.

"Without disparagement of the other candidates and putting

aside our political affiliations, we will heartily join in this testimonial."

Samuel L. Pattee was appointed in 1916 as judge of the superior court of Pima county. In 1918 he had so completely won the affections and admiration of the people of this county that he was endorsed by every lawyer of the local bar, was nominated by both the Democratic and Republican parties and was unanimously elected.

"We are moved to this action by our intimate knowledge of his eminent and outstanding qualifications for the office that he seeks; his unflinching diligence as a student of the law, his superior learning in that subject, his long and valuable experience as lawyer and judge, his perfect fairness and impartiality, and his zest to do justice as he sees it, regardless of persons or interests.

"Because we know him to be truly a judge according to the highest and best standard and a man of probity and uprightness, we commend him to the people of this state."

Dated this 27th day of July, 1920.

MEXICO BOY SCOUTS.

Mexico City.—The Boy Scout movement in Mexico is being revived. A call has been issued by the leaders of the movement, for all lads between twelve and seventeen years of age to present themselves for enrollment.

The Boy Scouts, or "The Corps of Mexican Explorers," as they are called here, formerly enjoyed a number of privileges from the government which provided them with uniforms, shoes, and even a small money allowance to pay their expenses during their excursions.

During the revolution, the movement virtually ceased. It is planned to give it new impulse along the lines formerly followed.

Mine Sweeper No. 38.

This little boat was one of the fleet of 50 which cleared the North Sea of 35,000 mines.

The Fleet has just returned to this country and was given a big reception in New York City.

These boats would sometimes be out for as long as twenty-five days in the storms and seas for which the North Sea is noted. The work was declared impossible by other navies, but the United States went ahead and completed this work before the scheduled time.

The U. S. Navy once again did the impossible.
